Attention: Thomas Wong

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the 731 says this is a PC2. The original grant is for emissions designator 1M25F9W. The new report has 1M25F9W and 1M25D9W. This appears to be simply an addition of a new emissions designator. The test report and engineering declaration indicates that the original equipment was capable of this modulation scheme. Please verify.
