Pursuant to FCC 22-84 Report and Order and KDB 986446 D01 Covered Equipment v03, the Commission adopted new FCC requirements to protect the nation's networks and supply chains from equipment that poses an unacceptable risk to national security or the safety of U.S. persons. Specifically, the Commission adopted rules that prohibit equipment authorization for "covered" telecommunications equipment and video surveillance equipment produced by entities identified on the Commission's Covered List.

This updated document includes software from Kaspersky Lab, Inc. including cybersecurity or anti-virus software.

Certifications FCC ID: ABZ89FT5911 concerning "covered" equipment. Section 2.911(d)(5)(i)-(ii).

Matt Nawrocki ("the applicant") certifies that the equipment for which authorization is sought does not contain "covered" software prohibited from receiving an equipment authorization pursuant to section 2.903 of the FCC rules.

Matt Nawrocki ("the applicant") certifies that as of the date of the filing of the application, the applicant is not identified on the covered list as an entity producing covered equipment.

Thank you.
