Subject: Request for Class II Permissive Change for Transmitter with  
FCC ID: ABZ99FT4056

Dear Sir or Madam:

Motorola Inc., 1313 East Algonquin Road, Schaumburg, Illinois, herein requests a Class II Permissive Change for the equipment identified by FCC ID number ABZ99FT4056.

The change is requested due to the addition of the slim Li-Ion battery (NNTN4970A) to the list of available radio accessories. The slim Li-Ion battery causes the radio to be closer to the body during the SAR testing which resulted in higher SAR levels.

An amended SAR/EME Compliance Test Report has been submitted which includes data with the new Li-Ion battery.

Please contact me if you require any additional information.

Sincerely,

A handwritten signature in cursive script that reads "Donna Tokarz".
