Use only the supplied USB charging cord when connecting to a computer.

Usage status	Earphone LED lighting/blinking patterns
Charging for the first time (after purchase)	The earphone LEDs light (red) about 8 seconds after you put earphones into the charging case.
Charging any time after the first time (When there is still battery charge)	When you put earphones into the charging case, the earphone LEDs light (red), then turn off. After approx. 3 seconds, the earphone LEDs light (red) again. If the earphone LEDs do not light (red) again, the earphones are fully charged.
When the batteries are depleted (When there is no battery charge at all)	The earphone LEDs light (red) about 5 seconds after you put earphones into the charging case.

3 Confirm that the earphone LEDs (red) have illuminated (charging starts) • The earphones LEDs light (red) while the earphones are charging. Charging is

- complete when they turn off.
- To charge the batteries from empty to full
- It takes approximately 2 hours to charge the earphones
- It takes approximately 2.5 hours to charge the charging case by itself
- It takes approximately 4 hours to simultaneously charge the earphones and the charging case
