Ad Hoc Mode Declaration

September 20, 2021
HEG-21-U022

Federal Communications Commission
Authorization and Standards Division
7435 Oakland Mills Road
Columbia, MD 21046 USA

Subject: Original Application for Technics Network CD Receiver Model SA-C600
             FCC ID: ACJ-SA-C600

To whom it may concern:

1. The EUT doesn't have Ad Hoc Mode function on "non-US frequencies". 802.11a/n Ad Hoc mode should not be supported even on US DFS frequencies (5.25 ~5.35GHz/5.47 ~5.725GHz).

2. In addition, the frequency selection feature is disabled by firmware for devices marketed to the US. The product meets all other requirements specified in Part 15E Section 15.407 and no configuration controls are provided to change the frequency of operations outside the grant of certification for US operation.

3. Only channels 1~11 will be used in USA. Country code selection is disabled.

Please contact me if you have any questions or need further information regarding this application.

.
Sincerely,

Ben Botros
