Re: Class II Permissive Change for Seat Back ECU, Model AT2002 under FCC ID: ACJ932AT2002

To Whom It May Concern:

In accordance with KDB Publication 178919 V) F), we request a class II permissive change for FCC ID: ACJ932AT2002 which was originally granted on 04/27/2020 to reduce the output power.

The maximum output power rating of the original authorization does not change and power levels are not exceeded. Hardware is identical and has not changed from original grant. Changes are only in the power setting configuration only.

The power setting is different between the variant model and the original model. For details please refer to attached “Test Report and “Theory of Operation”

Thank you for your attention to this matter.

Authorized by,

Ben Botros
