

Answer #4

For the Siemens MC46 Module:

Voice:

Single Slot (Multislot Class 8)

Data:

Multislot Class: 10 (up to 2 transmitting slots)

Note: The EUT was set at maximum power with 2 transmitting slots in a body-worn configuration (data use on lap). The normal voice mode GSM (1 slot) was used in the held-to-ear configuration

Power Class:

Cellular Band:

Power Class for Max Power: 5 (33 dBm)

Note: See Answer #3 for base station simulator screens corresponding to the max power level

PCS Band:

Power Class for Max Power: 0 (30 dBm)

Note: See Answer #3 for base station simulator screens corresponding to the max power level
