

FCC Label and location for Panasonic Module  
Model WL16B  
(FCC ID: ACJ9TGWL16B)

- FCC: Per KDB 784748 the marking may be placed in the user manual if the device is unquestionably too small to be readable (smaller than 4 - 6 pt font).
- IC: Per RSS - GEN 5.2 - The label text shall be legible without the use of magnification and if too small to meet this condition the label information may be included in the user manual.
- The WL16B is considered to meet this criteria since the module size is 12mm x 16mm and 4pt font is the largest that can be used for module labeling which requires magnification for clear viewing.

The FCC ID of the module model WL16B will be shown in the user manual as the following figure.

Model : WL16B FCC ID : ACJ9TGWL16B IC : 216H-CFWL16B
--

In addition, the module model WL16B is never marketed stand-alone in US. The module model WL16B will be always mounted in a Panasonic Host PC before marketing in US. The "Contains FCCID: ACT9TGWL16B" will be displayed in the label of a Panasonic Host PC. Also the following module information will be displayed in the user manual of the Panasonic Host PC together with FCC regulatory compliance statement including RF Exposure statement.

This PC contains Model: WL16B FCC ID : ACJ9TGWL16B
