Re: Class II Permissive Change Application for Panasonic Single Modular Model WW16A under FCC ID:
ACJ9TGWW16B / Certified Under FCC Parts 22H, 24E, 27 and 90
For Installation within Panasonic Personal Computer Model CF-20

To whom it may concern:

Pursuant to CFR § 2.1043, Panasonic Corporation of North America hereby requests a Class II Permissive Change for its application with FCC ID: ACJ9TGWW16B, which was granted by UL Verification Services Inc.

This change represents:

- a. Mobile to Portable Classification due to Installation into Panasonic PC (Model: CF-20)
- b. This module used in the Host PC CF-20 has the power reduction mode which is specially programmed and tuned to operate at a lower power setting than the original maximum power to ensure that the output power does not exceed the targets described in the SAR report.
- c. Collocation with Wireless Module Model: WL16A with pre-existing FCC ID: ACJ9TGWL16A, whose SAR test data is included in this application.
- d. The Host PC CF-20 doesn't support LTE band 30 which is disabled at the factory.
- e. No other radio parameters have been changed.

Sincerely,

Ben Botros
Project Manager
Panasonic Corporation of North America
Product Safety & Compliance Department
