Re: Class II Permissive Change Application for Panasonic Single Modular Model WW21A under  
FCC ID: ACJ9TGWW21A/ Certified Under FCC Parts 22H, 24E, 27, 90, 96  
for Installation within Panasonic Personal Computer Model FZ-40 (mk2)

To whom it may concern:

We, Panasonic Corporation of North America performed SAR test to mount the module WW21A into the portable host (Panasonic PC Model FZ-40 (mk2)). The radiated emission testing was not additionally performed due to the following reasons:

- Additionally, the integrated host FZ-40(mk2) contains another wireless LAN module (Model: WL23B) and RFID module (Model: RI21A or RI23A). However, although all wireless modules operate simultaneously, internal testing confirmed that there is no influence on the emissions levels due to these simultaneous transmissions. Therefore, the host device remains compliant with the regulations.

Thank you for your attention in this matter.

Sincerely,

Ben Botros  
Manager – Regulatory and Compliance  
Panasonic Corporation of North America
