

EMC TEST REPORT (EMISSION)

Project Number : **48889500602** Date of Issue: March 4, 2005

FCC ID : ACLAP7F31

Model : NN-G354MFR

Product : Microwave Oven

Manufacturer : Panasonic Home Appliances Microwave Oven(shanghai) Co., Ltd.

Test results:

Number of samples tested: 1

Positive 1

Negative 0

Total pages including
raw data sheets

8

Measurement Site:

Name : Jiangsu TUV Product Service Ltd.
Address : 10 Huaxia M. Rd.Wuxi Jiangsu, 214100, China
Description of this test facility has been filed with the FCC. (Registration Number 767285)

Jiangsu TUV Product Service Ltd. is a subsidiary company of TÜV Product Service, GmbH according to the principles outlined in ISO/IEC 17025.

JIANGSU TUV PRODUCT SERVICE LTD. reports apply only to the specific samples tested under stated test conditions. Construction of the actual test samples has been documented. It is the manufacturer's responsibility to assure that additional production units of this model are manufactured with identical electrical and mechanical components. The manufacturer/importer is responsible to the Competent Authorities in Europe for any modifications made to the production units which result in non-compliance to the relevant regulations. Jiangsu TUV Product Service Ltd. shall have no liability for any deductions, inferences or generalizations drawn by the client or others from Jiangsu TUV Product Service Ltd. issued reports.

This report is the confidential property of the client. As a mutual protection to our clients, the public and ourselves, extracts from the test report shall not be reproduced except in full without our written approval.

China

SUMMARY:

The data and results referenced in this document are true and accurate. The reader is cautioned that there may be errors within the calibration limits of the equipment and facilities. The measurement uncertainty was calculated for measurements listed in this test report according to CISPR16-4:2002 "Uncertainty in EMC measurements" and is documented in the Jiangsu TÜV Product Service Quality System according to ISO/IEC17025. Furthermore, component and process variability of devices similar to that tested may result in additional deviation. The manufacturer has the sole responsibility of continued compliance of the device.

The tests were only performed according to FCC Part 18 which were requested by Panasonic Home Appliances Microwave Oven(shanghai) Co., Ltd.. Interference Voltage was evaluated (Please find attached raw data).

Sample	Interference Voltage		Result
	Minimum limit Margin	Maximum limit exceeding	
J50223071	>10dB	--	Pass

Environmental Conditions In The Laboratory:

	<u>Actual</u>
Temperature:	: 22 °C
Relative Humidity:	: 56 %
Atmospheric Pressure:	: 1027 mBar

Description of Device:

Power supply system	: AC 120V / 60Hz
Operating Frequency	: 2450MHz
Output RF Power	: 800W
Magnetron Type	: Matsushita 2M210
Employed Mode	: Turn table
Door Seal Type	: Choke----Original
