Subject: Ad Hoc Mode Function Declaration  
FCC ID: ACQ-STREAMTV

To Whom it may concern,

We, ARRIS, declare that the device does not support any non-US channels, country code selection, or Channel 12 and 13 in 2.4 GHz band in all the operational mode(s).

Also, the client software and associated drivers will not initiate any transmission on DFS frequencies without initiation by a master device. The device does not support DFS detection capability. This includes restriction on transmissions for beacons and support for ad-hoc peer-to-peer modes.

Regards,
