

Description of Operation

EUT is a Wireless Gateway cable modem with 11 channels. This device provided four kind of transmitting speed 1,2,5.5 and 11Mbps. The device of RF carrier is DQPSK,DB PSK and CCK.The device adapts direct sequence spread spectrum modulation. The Connector antenna was scolded on PCB provided diversity function to improve the receiving function.This Wireless Gateway cable modem is an IEEE 802.11b&g Wireless Gateway cable modem. It allows your computer to connect to a wireless network and to share resources, such as files or printers without being bound to the network wires. Operation in 2.4GHz Direct Sequence Spread Spectrum (D.S.S.S) & Orthogonal Frequency Division Multiplex (O.F.D.M) radio transmission, the Wireless Gateway cable modem transfers data at speeds up to 64/128-bit Wired Equivalent Protection(WEP) algorithm is used. In addition, its standard compliance ensures that it can communicate with any 802.11b & g network.
