E SA / 200V Fast Acting

The image shows a rack of server modules. The top row contains several modules with various ports and indicators. The middle row contains modules with network ports and status lights. The bottom row contains modules with various ports and indicators. The rack is labeled with numbers 1 through 21 at the bottom.

The image shows three power supply units (PSUs) in a rack. Each PSU has a handle and a fan. The units are labeled with 'CONTINUOUS' and '21 FLEX'. The units are numbered 1 through 4 at the bottom.
