Correspondence Reference No.: 21055
Request for Tech. Info.: 10/25/2001

Dear Joe:

Transmitted herewith, on behalf of Sanyo Electric Co., Ltd., is an amendment provided in response to the request for technical information dated October 25, 2001.

1. Please find the attached revised cover letter, SAR and EMC reports certificates of compliance indicating the maximum SAR in the head configuration in PCS mode as 1.2 W/kg.
2. Please find the attached SAR test data summary and plots for the right side of the head.
3. Please find the data for the retest for brain SAR for the worst channels for AMPS and PCS. The retest was done with our new SAM phantom in 15 cm of liquid. Please note that the SAR values are similar to the original filing. Please find the data for the retest for body SAR for the worst channels for AMPS and PCS. The retest was done in 15 cm of liquid. Please note that the SAR values are similar to the original filing.
4. Please find the attached revised EIRP data from the EMC report.
5. Please find the attached revised operational description.

We trust this information is sufficient to issue the grant as soon as possible. If you have any further questions, please do not hesitate to contact us.

Randy Ortanez
President
