Dear Martin:

Transmitted herewith, on behalf of Sanyo Electric Co., Ltd., is an amendment provided in response to the request for technical information dated January 23, 2002.

1. Per our conversation on Feb. 5, 2002 concerning CRN 21838, please find the attached spurious data for the AMPS mode, a retest of the highest channel for PCS Brain SAR and a scan of the back of the phone showing that the hottest portion of the phone was tested in the original filing.

We trust this information is sufficient to issue the grant as soon as possible. If you have any further questions, please do not hesitate to contact us.
