Subject: Request for Confidentiality
FCC ID: AEZSCP-84H

To Whom It May Concern:

In accordance with §0.459 of CFR 47, SANYO Electric Co., Ltd. requests confidentiality for the following items

1. Block Diagram
2. Parts List
3. Adjustment Procedure and Schematic Diagrams

These items contain detailed system and equipment description and related information about the product which SANYO Electric Co., Ltd. considers to be proprietary, confidential and a custom design which otherwise would not be released to the general public. Since this design is a basis from which future technological products will evolve, SANYO Electric Co., Ltd. also feels that this information would be of benefit to its competitors, and that the disclosure of the information in these exhibits would give our competitors an unfair advantage in the market.

Subject: Request for Short-Term Confidentiality
FCC ID: AEZSCP-84H

To Whom It May Concern:

In accordance with §0.457 and 0.459 of CFR 47, SANYO Electric Co., Ltd. requests short-term confidentiality (45 days) for the following items

1. Test Setup Photos
2. External and Internal Photos
3. User's Manual

These items contain detailed system and equipment description and related information about the product which SANYO Electric Co., Ltd. considers to be proprietary, confidential and a custom design which otherwise would not be released to the general public. Since this design is a basis from which future technological products will evolve, SANYO Electric Co., Ltd. also feels that this information would be of benefit to its competitors, and that the disclosure of the information in these exhibits would give our competitors an unfair advantage in the market.

Subject: Affidavit for ESN Protection of Cellular Mobile Telephones
FCC ID: AEZSCP-84H

We hereby certify that the Handheld Portable Cellular Telephone, **FCC ID: AEZSCP-84H** is so designed that it complies with all the requirements for ESN protection specified in Section 22.919.

- a) The transmitter in service has a unique ESN.
- b) The ESN host component is permanently attached to a main circuit board of the mobile transmitter and the integrity of the unit operating software cannot be altered. The ESN is plated from fraudulent contact and tampering. The ESN is encoded using multiplication by a polynomial and the ESN data programmed in the memory with other information.
- c) The ESN is factory-set and cannot be altered, transferred, removed or otherwise able to be manipulated. Cellular mobile equipment is specifically designed such that any attempt to remove, tamper with, or change the ESN chip, its logic system, or firmware originally programmed by the manufacturer will render the mobile transmitter inoperative.

Subject: **FCC E911 Requirements Per §22.921**
FCC ID: AEZSCP-84H

To Whom It May Concern:

Sanyo Electric Co., Ltd. hereby certifies that the cellular telephone (FCC ID: AEZSCP-84H), using the Automatic A/B Roaming – Intelligent Retry method, meets the E911 requirements specified in Section 22.921 of the FCC Rules. This procedure recognizes when a “9-1-1” call is made and, at such time, will override any programming in the mobile unit that determines the handling of a non-911 call and permit the call to be handled by other analog carriers.
