Dear Sir/Madam:

As appointed agent for **ICOM Incorporated**, we submit the application for Class II Permissive Change (C2PC) certification of the above product. Please review all files uploaded to your electronic filing site.

The modifications performed are substitution of some of the components due to parts out of production. The circuit improvements don't change electrical performance or measurement from the original except adding 8.33KHz capability. For list of modifications, kindly refer to manufacturer's C2PC letter and parts list exhibits.

If you have any queries, please do not hesitate to contact us.

Yours truly,
