RE: FCC ID: AFJ297400\_ATCB005134  
Attention: Tri Luu

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that while the notification letter has been sent to the FAA, 87.147(4)(2) also shows that the FAA must return an acceptable determination before certification is granted. Please provide a copy of the determination from the FAA.
2. Please note that the rated output power reported to the FAA and the rated output power in the report and reported to the FCC (page 6 of the report) are not the same. The rated power reported to the FAA is 8W. The rated power reported to the FCC is 10W. The measured power supports the FCC rated numbers. Please explain and please correct all appropriate documentation. Please report rated power in the same units and type for all documentation.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
