RE: FCC ID: AFJ306301\_ATCB005907  
Attention: Tri Luu

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the FCC band listing policy does not allow the 406 – 606.1 MHz frequency band to be listed on a part 90 device. Please also note that there are no contiguous Part 90 frequencies between 222MHz to 406.1MHz. Consequently it is not possible to list the 400 to 406.1MHz band on the FCC grant. The listing would be 406.1MHz to 470MHz. Please note that even if you could list from 400 to 406MHz, you would have to show how the device does not violate compliance to the particular rule parts involved (i.e. the technical sections of parts 25 etc) which has not been done. See Band listing KDB 634817 for reference.
2. Please note that test frequencies must be those in the rule section being certified (i.e. from the Aug 2009 FCC band listing policy KDB 634817 section f. “Test guidance” par (i). Test only on allowed frequencies). Please provide adequate justification showing the frequencies in the report were chosen as appropriate for testing to the requirement that only authorized/allowed frequencies be used as test frequencies in the FCC band listing policy (i.e. please show the particular Part 90 section involved). Please see the FCC band listing policy KDB 634817 for reference. Please provide data in line with the KDB band listing policy.
3. Please note that based on the responses to the above items, further comments may result.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
