DEC 2 2015

Mr. Andy Leimer
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

Dear Mr. Leimer:

We have received the ICOM Inc. letter dated November 17, 2015 notifying the Federal Aviation Administration of the application for the Federal Communications Commission (FCC). The certification of the Transceiver, Model IC-A120, FCC ID: AFJ369700 is completed. We have no objection to the FCC Certification of this very high frequency (VHF) ICOM Inc. air ground Transceiver, which operates in the aviation protected VHF band of 118.0 MHz to 136.975 MHz, with 25 MHz and 8.33 kHz channel spacing. Applicant should be aware that 8.33 kHz is not allowed within the United States National Air Space.

If you require any additional information, please contact Ms. Annette Allender, Electronics Engineer, Spectrum Planning and International Group, at (202) 267-3893 or via e-mail annette.allender@faa.gov.

Sincerely,

Robert A. Frazier
Manager, Spectrum Planning and
International Office
