PANEL DESCRIPTION

◊ Microphone

*The assigned function may differ, depending on the presetting. Ask your dealer or the transceiver's administrator for details.

Status indicator:

Lights red: Transmitting

Lights green: Receiving or squelch is open.

ABOUT THE COMMAND MIC

The Command Mic comes with internal Bluetooth module, and is supplied microphone for IC-F5330D, IC-F6330D or developing radios in the future.

NOTE: When you remotely operate the transceiver by using a mobile device or Bluetooth Low Energy device, BE SURE to check your local regulations.

ELECTROMAGNETIC INTERFERENCE

When you use a Bluetooth device, pay attention to the following:
 Bluetooth devices operate on the 2.4 GHz band. The 2.4 GHz band is also used by other devices, such as wireless LAN products, microwave ovens, RFID systems, amateur radio stations, and so on. When using a transceiver with the Bluetooth unit installed and turned ON near such devices, interference may occur, causing a decrease in communication speed, and an unstable connection. In such cases, use the transceiver with the Bluetooth unit away from the other devices, or stop using those devices.

EXPLICIT DEFINITIONS

WORD	DEFINITION
△ DANGER!	Personal death, serious injury or an explosion may occur.
△ WARNING!	Personal injury, fire hazard or electric shock may occur.
CAUTION	Equipment damage may occur.
NOTE	If disregarded, inconvenience only. No risk of personal injury, fire or electric shock.

PRECAUTIONS

IMPORTANT: The Bluetooth communication range may vary, depending on your operating environment. Microwave ovens or Wireless LANs may cause interference. In that case, stop using those devices or move away from them. This Bluetooth device has a usable range. If communication is unstable, move within the range.

△ **DANGER! NEVER** use a device with the Bluetooth unit installed and turned ON near medical equipment, or near a person who has a pacemaker. Radio waves from the device may cause interference, or endanger their life.

CAUTION: DO NOT use a device with the Bluetooth unit installed and turned ON near microwave ovens. Interference may occur.

CAUTION: DO NOT make any changes or modifications to the device.

NOTE: You may not be able to use some Bluetooth device's function, even if the unit is installed.

FCC INFORMATION

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

This device complies with Part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

CAUTION: Changes or modifications to this transceiver, not expressly approved by Icom Inc., could void your authority to operate this transceiver under FCC regulations.

Internal Bluetooth unit information:

FCC ID: AFJ387300
IC: 202D-387300

SPECIFICATIONS

- Bluetooth version: 5.3
- Transmission Output: Class 1
- Supported profiles: HFP, HSP, SPP, GATT (Serial) over LE
- The maximum number of paired Bluetooth devices: 7 devices*
- Dimensions: 134.8(H) x 60.8(W) x 35.5(D) mm
Approximately 250 g
- Dimensions: * Either headsets or mobile devices are maximum 4 devices, and the combination is 5 devices in total.
- Bluetooth Low Energy devices are maximum 2 devices.
- The specifications are subject to change without notice or obligations.

FRANÇAIS

DÉFINITIONS EXPLICITES

TERME	DÉFINITION
△ DANGER !	Risque d'accident mortel, de blessures corporelles graves ou d'explosion.
△ AVERTISSEMENT !	Risque de blessures corporelles, d'incendie ou de choc électrique.
MISE EN GARDE	Risque de dégât matériel.
REMARQUE	La non prise en compte peut entraîner des désagréments. Absence de risque de blessures corporelles, d'incendie ou de choc électrique.

PRÉCAUTIONS

IMPORTANT: La portée de communication en Bluetooth peut varier en fonction de l'environnement dans lequel l'appareil fonctionne. Les fours à micro-ondes ou les réseaux d'accès local sans fil peuvent causer des interférences. Dans ce cas, arrêtez d'utiliser ces appareils ou éloignez-vous d'eux. Ce périphérique Bluetooth® dispose d'une zone de portée utilisable. Si la communication est instable, déplacez-vous dans cette zone.

△ **DANGER!** N'utilisez JAMAIS un appareil avec l'unité Bluetooth installée et allumée à proximité d'un équipement médical ou d'une personne portant un stimulateur cardiaque. Les ondes radio émises par l'appareil peuvent provoquer des interférences ou mettre la vie en danger.

MISE EN GARDE : NE PAS un appareil avec l'unité Bluetooth installée et allumée à proximité de fours à micro-ondes. Des interférences peuvent se produire.

MISE EN GARDE : NE PAS changement ou modification à l'appareil.

REMARQUE: Il se peut que vous ne puissiez pas utiliser la fonction de certains appareils Bluetooth même si l'appareil est installé.

INFORMATION FCC

Cet équipement a été testé et reconnu conforme aux limites fixées pour un appareil numérique de classe A, conformément au point 15 de la réglementation FCC. Ces limites assurent une protection raisonnable contre les interférences nuisibles lorsque l'équipement est utilisé dans un environnement commercial. Cet équipement génère une énergie de radio fréquence, utilise et rayonne et s'il n'est pas installé et utilisé conformément au manuel d'instruction, peut causer des interférences nuisibles aux communications radio. Le fonctionnement de cet équipement dans une zone résidentielle est susceptible de causer des interférences nuisibles lorsque l'utilisateur doit corriger les interférences à ses propres frais.

Cet appareil respecte les conditions établies au paragraphe 15 des règles de la FCC. Son utilisation est assujettie à la condition de ne pas provoquer des interférences nuisibles.

MISE EN GARDE: Tout changement ou modification, non expressément approuvé par Icom Inc., peut annuler l'autorisation de l'utilisateur à utiliser cet appareil conformément à la réglementation FCC.

IC: 202D-387300

FUNCTION DISPLAY

① ICON AREA

Displays the icons, as shown below.

Y	Displays the relative receive signal strength level.
LOW	Displayed when the low output power is selected.
↑	Displayed when the Shift function is ON. The user can use a Dealer Assignable key's secondary function in the Shift mode. Ask your dealer for details.
◐	Displayed when the channel is in the audible (unmuted) mode.
✉	Blinks after messages (Message or Status Message) have been received.
🔔	Displayed when a matching signal is received, depending on the presetting.
⌚	<ul style="list-style-type: none"> • Blinks when the Bluetooth function is ON. • Displayed when the transceiver is paired with a Bluetooth device.
⚡	<ul style="list-style-type: none"> • Blinks while scanning. • Displayed when a scan is paused.
★	Displayed when the channel is selected as a scan target channel.
⌚	<ul style="list-style-type: none"> • Displayed when the Encryption function is ON. • Blinks when decoding an encrypted signal.
📍	<ul style="list-style-type: none"> • Displayed when valid position data is received. • Blinks when searching for satellites.
👉	Displayed when the Talk Around function is ON.
👤	Displayed when the Lone Worker function is ON.

② ALPHANUMERIC READOUT

Displays messages such as channel text.

③ DEALER ASSIGNABLE KEY ICONS

Displayed while the function assigned to [P1], [P2], [P3], or [P4] is operating.

④ May not be displayed, depending on the assigned function.

BASIC OPERATION

◊ Turning ON the transceiver

- Hold down [Φ] for more than 2 seconds until the Status indicator or Power indicator lights orange.

NOTE: Entering the password may be required to turn ON the transceiver, depending on the presetting. Ask your dealer or the transceiver's administrator for details.

◊ Receiving

1. Push [Up] or [Down] to select a channel.
2. When a call is received, the Status indicator lights green.
- ④ Push [+] or [-] to adjust the audio output level to a comfortable listening level.

◊ Transmitting

CAUTION: DO NOT transmit without an antenna.

1. Wait until the channel is clear to avoid interference.
2. While holding down [PTT], speak at your normal voice level.
3. Release [PTT] to receive.

IMPORTANT:

- To maximize the readability of your signal:
1. After pushing [PTT], pause briefly before you start speaking.
 2. Hold the microphone 5 ~ 10 cm (2 ~ 4 inches) from your mouth, then speak at your normal voice level.
