RE: ICOM

FCC ID: AFJAP-12

I have a few comments on this Application.

- 1.) The manual declares this device must be "fixed mounted on outdoor permanent structures with a separation distance of 20cm". This is at odds with the installation instructions in Section 4 on page 7 of the manual.
- 2.) The "Information to User" section described in 15.21 seems to be missing. If I am mistaken, please indicate where in the Manual it exists.
- 3.) Parts Lists are not required for this type of Part 15 device, but a Parts List was uploaded to AmericanTCB. If this is to be included in the Confidentiality Request, please revise your letter.
- 4.) Form 731 quotes EIRP as .0295W. This should be a conducted value.
- 5.) Form 731 and Test Report call this a DSS, but no processing gain is supplied. If this is to be a DTS, please supply a DTS request letter.

Thank you,

William H. Graff
President and Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
