Subject: Updated information for Class II Permissive Change

Dear Sir/Madam

This device is an amateur radio transceiver, which certified under the scanning receiver.

In order to comply with new FCC scanner regulation, a permanently affixed warning label has been attached to the products as per FCC Part 15.121 (f)(1). Otherwise, the device is internally and electronically same to original device.

About test report requirement for at least 38dB image rejection of cellular service, the device operates below 520MHz, and is impossible to test and measure the cellular image rejection for Cellular Service

Therefore no cellular image test report can be provided

Best regards
