FEDERAL COMMUNICATIONS COMMISSION

7435 Oakland Mills Road
Columbia, MD 21046
USA

Subject: Class II Permissive Changes under FCC CFR 47, Parts 2, 22, 74 and 90 (Subpart I) – Licensed Non-Broadcast Radio Transceivers Operating in the frequency band 146-174 MHz (12.5 kHz and 25 kHz Channel Spacings).

Applicant: Icom Incorporated
Product: VHF-FM Handheld Transceiver
Model: IC-F3GT-2 and IC-F3GS-2
FCC ID: AFJIC-F3G-2

Dear Sir/Madam,

As appointed agent for **Icom Incorporated**, we would like to submit the application to Federal Communications Commission for certification of the above product for Class II Permissive Changes. Please review all necessary files uploaded to FCC OET site.

The original approved equipment was for 12.5 kHz channel spacing operation with 11K0F3E emission designation. The device has been upgraded to 12.5/25 kHz multi-mode operation (with emission designation of 11K0F3E and 16K0F3E). Please note that there are no component (hardware) changes. This upgrade was accomplished with software; the source code on the microprocessor was upgraded to implement the multi-mode operation.

If you have any queries, please do not hesitate to contact us by our TOLL FREE number:
