FEDERAL COMMUNICATIONS COMMISSION

Via Electronic Filing

Attention: Frank Coperich

APPLICANT: ICOM INCORPORATED

Equipment: FCC ID: AFJIC-F40G-2 EA98142

Corres. 15600 08/15/2000

Frank: The following is the response to your questions:

Items 1, 2, 3. It appears that the Commission does not want to accept a 5-5-90 duty factor for this device, although it is specified by the Applicant-Manufacturer.

The device has been tested for R. F. Exposure requirements for BOTH held-to-face (2.5 cm) and belt-clip accessory for body use (2.5 cm) per the Environmental Assessment Report attached. We trust it will prove acceptable.

Item 4. An up-dated instruction sheet is also attached

Item 5. This 'generic' statement has been deleted

Item 6. We have advised the Applicant that in future submissions, larger photos must be presented.

Item 7. ERP was measured using procedures shown in ANSI/TIA EIA-603-1992 - also attached.

We trust the foregoing answers the questions raised to your satisfaction.

Best personal regards,

MORTON FLOM, P. Eng.
