Ritron drawing 14200179A specifies the FCC label for models RQA-151 and RQT-151. Photographs to indicate the position of the label on each model's case are included with this certification request as a separate exhibit.

Each serial number is recorded, along with the date of manufacture, and is kept on file at RITRON, Inc.

Serialization will begin with serial number A1234. The size of the serial label is 3.00" by 0.75".

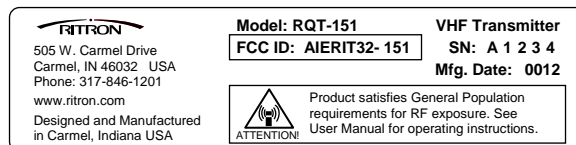

NOTES:

1. The FCC/IC serial label will be made in house per this specification drawing for all models listed in the table at right.
2. A Brady IP300 thermal transfer printer will be used with glossy white polyester labels (RTN# 14290011). Identco Z-TT700 CUSTOM, a 3 inch by 0.75 inch label, is the approved material. The approved thermal transfer ribbon is Brady 4300 Series.
3. Labels will be numbered sequentially, with an initial 5-digit number of A1234. Records are maintained to track the next available serial number. All models listed share the same serial sequence, and are identical except for model identification.
4. Each label will contain an updated Manufacturing Date using the Ritron 4-digit Date Code (YEAR/MONTH).
