Subject: Extended Frequencies Justification

Dear Sir/Madam,

The Radio with FCC ID: AIERIT49-1317DMR

This transmitter was designed to operate in following frequency ranges: 136-174MHz

To aid equipment authorization in other countries which accept the United States FCC Grant for Certification, Ritron Inc is requesting that the FCC lists the frequencies 136-174MHz under FCC Rule Part 90 on the FCC Grant.

Ritron Inc attests that the VHF DMR Digital / Analog Two-Way Radio will not be marketed to USA users with the frequency band which is not allowed by the rule part 90. Per the FCC’s KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it’s a violation of the FCC Rules if this device operates on unauthorized frequencies.
