

Federal Communications Commission

Subject : Request for dismissal of FCC ID : AJDK043

To whom it may concern:

We, PIONEER CORPORATION hereby authorize SIEMIC, INC. to act as a certification body for dismissing the following FCC ID:

Double DIN iPhone Control Receiver (M/N: SPH-DA01/XZEW5, SPH-DA01/XZUC, FCC ID: AJDK043).

The reason for this dismissal is that FCC ID was approved too early, more than one month before the product goes to market, which causes a production information leakage because production information is published on FCC official Web Site. We would like to keep production information secret before it goes to market.

P.S., We will file for FCC ID (with the same FCC ID: AJDK043) again later in May, 2011.

Please kindly contact me if you have any questions.
Thanks and best regards
