

USER'S MANUALS

MANUALS

Rockwell Collins, Inc. does not supply an instruction book with the HST-900 SATCOM transceiver. The transceiver is supplied to airframe manufacturers and airlines, and designed to meet the requirements of Inmarsat. Operating instructions are not necessary because the unit is part of a larger satellite communications system. Rockwell Collins does produce the HST-900 Component Maintenance Manual, a comprehensive installation manual which, pursuant to an agreement with the FCC staff, is available upon request but is not included in this electronic exhibit.
