Re: Equipment Authorization Under Part 87- Request for Confidentiality
SRT-2100B Aeronautical Satellite Communications Transceiver
FCC ID: AJK8221785

Gentlemen:

In accordance with provisions of Federal Communications Commission (FCC) Rules and Regulations, Parts 0.459 and 0.457(d)(2), Rockwell Collins hereby requests that exhibits E1 - E5 (Schematic Diagrams), I (Internal Photos), and J (Tune-Up Procedure/Parts List) for Equipment Certification of the SRT-2100B Aeronautical Satellite Communications Transceiver be withheld from public inspection. The FCC ID is: AJK8221785.

Exhibits E1, E2, E3, E4, and E5 (Schematic Diagrams), I (Internal Photos), and J (Tune-Up Procedure/Parts List) have information concerning signal processing methods and also methods used for alignment and adjustment of tolerances of spectrum for the equipment. The information is confidential and is customarily guarded from competitors. If a competitor were to obtain this information, it could use the information to reverse engineer the SRT-2100B. As a result, the FCC should protect this information from public disclosure under Exemption 4 of the Freedom of Information Act (5 U.S.C. § 552(b)(4)) because disclosing the information could reasonably be expected to cause substantial competitive harm to Rockwell Collins, Inc.

Your early consideration of the Application is respectfully requested. Please direct all inquiries to Mr. John Giff of this office at 703.516.8213.

Respectfully submitted,

John F. Provenzano
Senior Director, Federal Affairs
