Re: Equipment Authorization Under Part 87- Request for Confidentiality  
**WRAU-2120 MultiScan Weather Radar Receiver/Transmitter**  
**FCC ID: AJK8222127**

Gentlemen:

In accordance with provisions of Federal Communications Commission (FCC) Rules and Regulations, Parts 0.459 and 0.457(d)(2), Rockwell Collins hereby requests that exhibits D (Block Diagrams), E (Schematics), J (Parts List/Tune-Up Information), and L (Operational Description) for Equipment Certification of the WRAU-2120 MultiScan Weather Radar Receiver/Transmitter (FCC ID: AJK8222127) be withheld from public disclosure.

Exhibits D (Block Diagrams), E (Schematics), and J (Tune-Up Procedure/Parts List) have information concerning signal processing methods and also methods used for alignment and adjustment of tolerances of spectrum for the equipment. The information is confidential and is customarily guarded from competitors. In addition, we are requesting confidentiality for Exhibit L (Operation Diagrams) since it contains some Block Diagrams. If a competitor were to obtain any of this information, it could use the information to reverse engineer the WRAU-2120. As a result, the FCC should protect this information from public disclosure under Exemption 4 of the Freedom of Information Act (5 U.S.C. § 552(b)(4)) because disclosing the information could reasonably be expected to cause substantial competitive harm to Rockwell Collins, Inc.

Your early consideration of the Application is respectfully requested. Please direct all inquiries to Mr. John Giffit of this office at 703.516.8213.

Respectfully submitted,

Linda C. Sadler  
Director, Federal Affairs
