Columbia, MD 21046

Dear Sirs:

I respectfully request confidentiality of certain materials provided with the submission of the DME-2100 under FCC ID: AJKPN822-2325 in accordance with FCC Regulations 0.459. The confidentiality request applies to the following exhibits:

Schematics.pdf  
System Block Diagram.pdf  
Internal Photos.pdf  
Theory of Operation.pdf  
Tune Up Procedure.pdf  
Parts List.pdf  
Manual.pdf

Confidentiality of the Internal Photos is being requested because this is a non-consumer device which is not accessible to the general public and is only serviceable by the applicant or designated technicians. The Manual is technical and is not provided to the consumer because the consumer cannot service or install the device. Therefore confidentiality of the Manual is also requested.

The DME-2100 has been developed at considerable effort and expense by Rockwell Collins, Inc. These items are considered as Trade Secrets and therefore public access to the proprietary material could possibly result in duplication of equipment that could severely damage the company's business advantage.

I appreciate your assistance in this matter.

Sincerely,

Gustavo A. Colmenares, Sr. Engineering Manager  
Rockwell Collins
