

Exhibit G-Test Setup Photos

Test setup photo for Occupied Bandwidth and Spurious Emission at the Antenna, including the DME4000

Picture 1

Setup photo for Occupied Bandwidth and Spurious Emission at the Antenna, including the DME4000

Picture 2

The DME4000, peak power sensor, directional coupler and the pad used for the Occupied Bandwidth and Spurious Emission at the Antenna test

Picture 3

Temperature chamber and the test equipment's used for both Modulation Characteristic and Frequency Stability
