

PARTS LIST/TUNE-UP INFORMATION – EXHIBIT J

1.1 PARTS LIST

Description	Assembly
A1 RF Assembly Card	RF Circuit Card Assembly.pdf
A2 Signal Processor/Power Supply Card	DSP_PowerSupply_Assembly.pdf
A3 Rear Interconnect	Rear Interconnect Assembly.pdf

1.2 TUNE UP PROCEDURE

Alignment procedures are included in the draft Production Test Requirement (PTR) attached to this report as Exhibit N. Both the FCC and the Federal Aviation Administration intend these procedures for use only by factory personnel or by avionics repairmen. The only transmitter control available to the equipment operator (the aircraft pilot or other flight crewmember) is selection of the operating frequency channel.
