RE: FCC ID: AK8CECHZC01_ATCB003785
Attention: Akane Yamamoto

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the device appears to be more than sufficiently large to contain the required FCC statement per 15.19(a) (i.e. the device appears significantly larger than the palm of the hand). Please note that there are limited exceptions to this rule. Please provide sufficient justification in accordance with 15.19(a)(5) as to why the verbatim statement per the rules is not on the device. If sufficient justification cannot be provided, please provide a label containing the statement in 15.19
2. Please note that the data shown on page 29 of the FCC report appears to have been taken with the fundamental at 2402MHz. Please note that the frequency 2400MHz shown on the same page as 78dBuV would be a spurious emission. Please also note that 2400 is a band edge and while not in the restricted band must still be 20dB down from the fundamental. Please also note that the reading for 2402MHz was not taken using the same video. It is therefore not possible to accurately judge compliance in horizontal mode to the requirement that spurious emissions be 20dB down from the fundamental. As it is only necessary to show the spur at 2400 to be 20dB below the fundamental, please provide data of the fundamental emission using the same resolution and video bandwidth as used to take the spurious measurement. Please note that the same issue seems to exist on page 32 of the report as well.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
