

Hitachi Cable 080820

The image shows a close-up of a Hitachi Cable component, likely a ribbon cable, with a white label that reads "Hitachi Cable 080820". The label is oriented vertically. To the left of the label, there is a yellow strip. Above the label, there is a circular component with many thin, concentric copper-colored rings. Below the label, there is a small metal component with a silver-colored surface. The entire assembly is mounted on a light-colored, textured surface.
