RE: CONFIDENTIALITY REQUEST FOR FCC ID: AK8PCWAC700

To Whom It May Concern:

This letter serves as an official request for confidentiality under FCC rules Section 0.459. We would like to request you to withhold the Theory of Operation that had been submitted although the grant had been already issued on April 15, 2003. Theory of Operation is company proprietary information that could never get into the possession of our competition. However we did not request for the confidentiality of the Theory of Operation when we submitted the original application because we were not sure that it could be held confidential. Additionally, we realize the document was not confidential after grant until we submit this letter.

Please contact me if there is any information you may need.

Sincerely,

Takumi Ozawa
