Subject: Change of document lists that request confidentiality

Dear Betty,

We did FCC submission (composite device) yesterday for the following application:

Applicant: Sony Corporation
FCC ID: AK8PCWAC800S
Confirmation #: EA400106 (DTS)
Confirmation #: EA655154 (UNII)

During the submission, only "Block Diagram", "Schematics", and "Theory of Operation" were checked as confidential, however today the client decided to include "Antenna Specification" in their Request for Confidentiality letter. Attached please find the file.

Please kindly help us to update the filing in FCC database accordingly.

I will upload this letter along with Request for Confidentiality letter to FCC today.

Thank you!
Helen
