Re: Change of ID for FCC ID: AL8-520 and IC# 457A-520

To Whom It May Concern,

This is to request that a new FCC Grant [AL8-520] and IC TAC [457A-520] be issued for Plantronics Bluetooth headset, M/N: Voyager 520. The Plantronics Voyager 520 headset is directly based on the previously certified Plantronics M/N: Explorer 3XX.

Changes between the original Explorer E3XX and the new Voyager 520 are cosmetic in nature. No changes whatsoever have been made to the radio circuitry. Applicable test report for FCC Part 15.247 and IC RSS-210 Compliance for the Discovery E3XX headset is as follows: Compliance to CFR 47, 15.247 is based on EMCE Test Report 2512-1, dated 6/27/07, filed in support of the Grant of Certification for FCC ID: AL8-E3XX and IC TAC 457A-E3XX. This test was done on the original variant of the Explorer family and the design is considered to be identical to the Voyager 520 for purposes of these tests.

Best Regards

Peter Clark

Compliance Manager
