

Federal Communications Commission
Authorization and Evaluation Division

Subject: Short-term confidentiality request regarding application for certification
of **FCC ID: AL8-BB**

Due the delay of marketing the product, we would like to request the permission from the commission to allow us for extending the STC to February 13, 2009.

We understand that the original requested STC had expired on Nov. 30, 2008 and the STC relevant exhibits are already displayed on the EAS for public access.

The STC protection of those exhibits is important to us before we actually market the product; could you please help us to reinstall the STC again? We thank you for your attention and your earlier help is much appreciated.

Sincerely yours,

Alvin Ilarina
Compliance Engineer
