Re: Supersede request for FCC ID: **AL8-BB**; Granted on **11/19/2008**

To Whom It May Concern:

Due to the internal process error, we have mistakenly stated in the report that the device complies with FCC Class B peripheral device and had the DoC logo on the label.

The USB function on this product is for battery charging only, no data transmitting and/or receiving function involved. Accordingly, we have revised the test report, Label, Label Location.

To prevent misunderstanding to the public, we would like to request the FCC to supersede the exhibit described as "Label" 、 "Label Location" 、 "Test Report" outlined below with red color.
