

CBVS1 wireless charge stand FCC/IC label location

FCC ID label is located at the bottom of the stand.

IC label is located at the bottom of the stand.

The regulatory markings/nameplate data are legibly printed on a 0.8mm thick PET film with 0.08mm thick pressure sensitive adhesive, the label is affixed on the bottom enclosure which is a permanently attached part of the charge stand. The label is visible, but not touchable to user, this ensure the label is visible and indelible.
