Re: Change of ID for FCC ID: AL8-D650X and IC: 457A-D650X

To Whom It May Concern,

This is to request that a new FCC Grant [AL8-650X] and IC TAC [457A-D650X] be issued for Plantronics Bluetooth headset, M/N: 650X. The Plantronics 650X headset is directly based on the previously certified Plantronics M/N: D640.

Changes between the original D640 and the new D650X are cosmetic in nature. No changes whatsoever have been made to the radio circuitry.

Applicable test report for FCC Part 15.247 and IC RSS-210 Compliance for the Discovery 650X headset is as follows: Compliance to CFR 47, 15.247 is based on Cetecom Test Report EMC_906FCC15.247_2005_D640, filed in support of the Grant of Certification for FCC ID: AL8-D640 and IC TAC 457A-D640. This test was done on the original variant of the Discovery family and the design is considered to be identical to the D650X for purposes of these tests.

Best Regards
