Patents US 5,712,453; Patents Pending 83987-31 (0710); AM83988-31</small></p> 	<p>The loop of the gel eartip tucks into the back curve of your ear for a stable fit.</p> <p>Try on the headset. The eartip is positioned to suit most people, but you may want to rotate it to best fit your left or right ear.</p> <p>The gel eartip and speaker click into matching grooves so the eartip doesn't move out of place during use.</p> <p>The loop on the gel eartip should point away from the headset. (Do not rotate the eartip too far.)</p>		<p>If the gel eartip feels loose or tight in your ear, then change it. To replace the medium gel eartip for small or large, pull the loop of the gel eartip to remove it. (Don't pull on the speaker base and stem.)</p> 	<p>Using your thumb, tuck the bottom of the eartip over the speaker and pull the loop of the eartip over the speaker. (Don't push the speaker through the gel eartip.)</p> 	<p>For best voice pickup, always check that the headset points towards the corner of your mouth.</p> <p>VIDEO TUTORIAL: www.plantronics.com/M1100fit</p>  <p><small>Optional earloop shown</small></p>	<p>Listen to the Voice: This headset whispers various status alerts when you power on/off, run low on talk time or lose/reconnect the Bluetooth connection to your phone.</p> <p>Stay Near Your Phone: Bluetooth has a working "range" of up to 33 feet between the phone and headset before audio degrades and the connection is lost.</p> <p>Know How to Reconnect: Your headset tries to reconnect a lost connection. If it can't, then tap the Call button once or manually reconnect via the phone's Bluetooth device menu.</p>	<p>Area covered by band</p>

Federal Communications Commission (FCC) Statement

15.21

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

15.105(b)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) this device may not cause harmful interference and
- 2) this device must accept any interference received, including interference that may cause undesired operation of the device.

FCC RF Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Industry Canada (IC) Statement

15.21

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

15.105(b)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the IC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. 「減少電磁波影響，請妥適使用」

根據 NCC 低功率電波輻射性電機管理辦法 規定:

第十二條：經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

第十四條：低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。前項合法通信，指依電信法規定作業之無線電通信。

低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。
