Subject: Questions Regarding FCC ID: AL8-WH210

To: Mr. Alvin Ilarina/ Plantronics
From: Mr. Gregory Czumak / PCTEST TCB
RE: FCC ID: AL8-WH210

Applicant: Plantronics
Correspondence Reference Number: AL891216
Confirmation Number: 910061216
Date of Original Email: November 2, 2009

Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. Regarding the RFx Justification, the referenced KDB # cannot be accessed by a TCB. Please provide a copy of the FCC's entire response to the KDB sent by the SAR lab. Please see attached email "FW: Response to Inquiry to FCC (Tracking Number 820664)".
2. Please submit the page(s) from the referenced safety instructions that instructs the user regarding the operating temperature range (in order to justify the tested range). This information is related to the customer in a safety booklet that accompanies the equipment. The English language pages are attached as "Pages from 80755-02 User Guide, Safety, NA@SA, SAVI.pdf". Please reference the "General" section on Page 2.
3. Please confirm that you do not wish to request short term confidentiality for the

External/ Internal/ Test Setup Photos and User's Manual.

We do not wish to request short term confidentiality.

4. FYI: in the future, please submit a block diagram that provides more detail of the RF section of the EUT.

Affirmative.

5. FYI: the EMC report submitted is not required, since the EUT is not a pc peripheral. Please note that the minimum test configuration requirements of ANSI C63.4 (i.e., pc with minimum of 2 peripherals, one of which is the EUT) are not met in the EMC report set up.

Please disregard the report. The RJ45 on the PC is connected via Ethernet to a Ethernet hub that is outside the chamber. Would finding a hub that could be placed inside the chamber be sufficient? They keep removing interfaces from laptops these days (e.g. nothing has RS232 anymore). Making the minimum gets more and more interesting. Thanks in advance for the advice.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
Senior Certification Engineer
Quality Manager
