RE: Change in FCC ID/multiple listing for Plantronics CS70, and CS70N base telephone adapter

To Whom It May Concern:

The Plantronics CS70, and CS70N use the exact same base telephone adapter but are packaged with 4 different headset models. This base telephone adapter is a derivative product from the Plantronics CS55 base telephone adapter (FCC ID#AL8 CS55XXXX, grant date 11/11/05). This base telephone adapter:

- 1) is electrically identical to the CS55 base telephone adapter
- 2) shares the identical plastic body and identical accompanying accessories as the CS55 base telephone adapter
- 3) is fitted with a different plastic docking cradle than the CS55 base telephone adapter and connects to the plastic body frame.

Hence, the CS70/CS70N base telephone adapter will conform to 47CFR15 subpart D just as the CS55 base telephone adapter does.

For these reasons, I would like to request a change in FCC ID/multiple listing for the new CS70/CS70N base telephone adapter to become FCC ID #AL8CS7XXXX.

Please contact me if there is any information that you may require.

Regards
