Equipment: TK-480
FCC ID: ALH22961110

Expository Statement Permissive Change

The applicant has made design changes/improvements to the originally FCC approved equipment.

Data contained herein confirms that a Permissive Change to the unit has been effected and that the performance of the unit is at or better than the levels originally reported to the commission.

The following changes/improvements have been made:

The frequency tolerance on the grant has been changed to 1.5ppm versus 2.5ppm. The unit was always capable of this tighter frequency stability than authorized and no changes to hardware or software have been made to achieve this figure.

No changes of output power, modulation hardware, or frequency determining circuitry have been made in the change that necessitate a SAR re-evaluation

David E. Lee, Quality Assurance Manager
