Sorry for the errors. The person who was responsible for the figures is no long in our employ.

1. As explained in our reply of June 12th, 2000, Corresp. # 14273, tests were performed using styrofoam block to reduce ground bounce.
2. CF is different because another set of cables was used
3. With the original cables, the test data appears as per attached Amended Page 9.

We apologize for your extra work.

Personal regards,
