

Letter of Attestation

Model: TM-271A-1 Scanning receiver

This letter attests to the fact that Kenwood scanner receiver model TM-271A-1 meets the requirements of the FCC Rules, 15.121(a). Compliance is achieved through the following method(s):

- (1). The Microprocessor is hard coded to not accept programming, selection, scanning or direct entry of Cellular band frequencies.
- (2). Filtering precludes reception of mixer images or harmonics of Cellular band frequencies.
- (3). Subminiature SMD assembly and inaccessible multiplayer PCB construction all but precludes attempts at circuit hardware modifications.
